CONFIDENTIALITY NOTICE

Products obtained through this program are for club/team members' use only and shall not be sold by any means. Also, the special discounts are confidential to the participants of this program and are not to be shared outside of your organization. Any abuses of this program are subject to the club/team's immediate removal from the affiliated privileges associated with the Lew's/Strike King School Fishing Program.

Overview

Lew's a legendary rod and reel brand with a history of product innovation that continues to this day. Strike King is a household fishing bait and tackle brand that for decades has helped both professional and weekend anglers alike win both tournament days as well as any outing on the water. Both Lew's and Strike King are proud supporters of high school and collegiate fishing programs. The information that follows describes our official programs that have been designed to help school-sanctioned clubs/teams and their members acquire both Lew's and Strike King products at a discount. Please acquaint your group with these opportunities, many of which have been initiated as a result of input from existing high school and college fishing teams from across the country. We sincerely hope your club/team is interested in becoming part of the rapidly growing list of those affiliated with the Lew's brand and products.

Fishing Club/Team Eligibility

Any high school club/team that is recognized by the school's administration and has a designated advisor, coach or adult supervisor is eligible to register for participation in the Lew's/Strike King High School Fishing Program. A club/team must consist of at least six individuals to qualify for this program. To enroll, please complete and submit the registration form included with this information. Upon approval, a Lew's Fishing Team identification number (ID #) and/or Strike King Team identification number (ID#) will be assigned to your club/team for use on all forms and records pertaining to your group, depending on which program(s) have been applied for. Your group will retain "active" status as long as club/team rosters are updated and maintained in accordance with participation guidelines. Updated rosters must be supplied at the start of each school year.

Student Angler Eligibility

To be an eligible member of a high school fishing club/team, a student must be enrolled in the stated school as a full-time student.
